Recipe Creator Page:

A hand-drawn wireframe for a 'Recipe Creator' page. The page is enclosed in a rounded rectangle. At the top, the text 'Recipe Name' is written above a single-line text input field. Below this, the text 'Ingredients' is written above three horizontal lines representing a list. To the right of these lines is a button labeled '+ Add ingredients'. Below the ingredients section, the text 'Instructions' is written above a text area containing three lines of placeholder text (each line ending with three dots). At the bottom of the form are two buttons: 'Save Recipe' and 'Cancel'. Below these buttons is a separate box containing the text 'RECIPE SAVED!'.
